

In the Claims:

1. (Currently Amended) A method for the production of contact lenses for the treatment and/or care and/or protection of the eye, ~~consisting of the impregnation comprising impregnating of contact lenses in with~~ a solution which comprises one or more suitable components for the treatment and/or care and/or protection of the eye, wherein the suitable component is selected from the group consisting of wherein the at least one suitable component is selected from the group of: (dex)panthenol, pantothenic acid, hyaluron acid and its salts and derivatives, thiamines (Vitamin B1), riboflavin (Vitamin B2), pyridoxine (Vitamin B6), nicotinic acid, nicotinic acidamide, biotin (Vitamin B7), niacinamide and niacine (Vitamin B3), honey, bee products, red beetroot syrup, collagen, gelatine, taurine, serine protease, propamidines, Vitamin D, Vitamin D derivatives, calciferol, Vitamin K, tannin, pyruvates, fibroblastine, fibronectin, fibronectinhydrolysate, heparin, alfa-ketoglutaric acid, carnisine, laminisine, mucin, tenascin, EGF, PDGF, FGF, sugaresters, and all pharmaceutically acceptable salts and derivatives of the compounds mentioned above, and selenium, calcium, and zinc.
2. (Canceled)
3. (Original) The method of claim 1, wherein the solution comprises dexpantenol.
4. (Currently Amended) A composition for the treatment and/or care and/or protection of the eye, comprising at least one suitable component for the treatment and/or care and/or protection of the eye, wherein the at least one suitable component is selected from the group of: (dex)panthenol, pantothenic acid, hyaluron acid and its salts and derivatives, thiamines (Vitamin B1), riboflavin (Vitamin B2), pyridoxine (Vitamin B6), nicotinic acid, nicotinic acidamide, biotin (Vitamin B7), niacinamide and niacine (Vitamin B3), honey, bee products, red beetroot syrup, collagen, gelatine, taurine, serine protease, propamidines, Vitamin D, Vitamin D derivatives, calciferol, Vitamin K, tannin, pyruvates, fibroblastine, fibronectin, fibronectinhydrolysate, heparin, alfa-ketoglutaric acid, carnisine, laminisine, mucin, tenascin, EGF, PDGF, FGF, sugaresters, and all pharmaceutically acceptable salts and derivatives of the compounds mentioned above, and selenium, calcium, and zinc.
5. (Canceled)

6. (Currently Amended) The composition of claim 4 ~~5~~, further comprising compounds to disinfect, clean, insert and/or store contact lenses.

7. (Currently Amended) The composition of claim 4 ~~5~~, wherein the composition comprises one or more peptides as a component to disinfect, protect, clean and/or store the contact lenses.

8. (Original) The composition of claim 4, wherein the suitable component for eye-treatment is a medicine.

9. (Currently Amended) The composition of claim 8, wherein the medicine is chosen from the group of cromoglycin acid, ~~Edamastine~~ edamastine, azelastine and nedrocromil and their ophthalmologically ophthalmologically acceptable salts and derivatives.

10. (Original) The composition of claim 4, wherein the composition takes the form of a spray, solution, gel, coating and/or tablet.

11. (Currently Amended) A contact lens for treatment and/or care and/or protection of the eye impregnated with a composition comprising at least one suitable component for the treatment and/or care and/or protection of the eye, wherein the at least one suitable component is selected from the group of: (dex)pantenol, pantothenic acid, hyaluron acid and its salts and derivatives, thiamines (Vitamin B1), riboflavin (Vitamin B2), pyridoxine (Vitamin B6), nicotinic acid, nicotinic acidamide, biotin (Vitamin B7), niacinamide and niacine (Vitamin B3), honey, bee products, red beetroot syrup, collagen, gelatine, taurine, serine protease, propamidines, Vitamin D, Vitamin D derivatives, calciferol, Vitamin K, tannin, pyruvates, fibroplastine, fibronectin, fibronectinhydrolysate, heparin, alfa-ketoglutaric acid, carnisine, laminisine, mucin, tenascin, EGF, PDGF, FGF, sugaresters, and all pharmaceutically acceptable salts and derivatives of the compounds mentioned above, and selenium, calcium, and zinc.

12. (Canceled)

13. (Original) The contact lens of claim 11, wherein the composition further comprises compounds to disinfect, clean, insert and/or store contact lenses.

14. (Original) The contact lens of claim 11, wherein the composition comprises one or more peptides as a component to disinfect, protect, clean and/or store the contact lens.

15. (Original) The contact lens of claim 11, wherein the suitable component for eye-treatment is a medicine.

16. (Currently Amended) The contact lens of claim 8, wherein the medicine is chosen from the group of cromoglycin acid, Edamastine, azelastine and nedrocromil and their ophthalmologically acceptable salts and derivatives.

17. (Original) The contact lens of claim 11, wherein the composition takes the form of a spray, solution, gel, coating and/or tablet.

18. (Currently Amended) A kit for the production of contact lenses for the treatment and/or care of the eye, comprising:

one or more kits of contact lenses, and

a composition comprising at least one suitable component for the treatment and/or care and/or protection of the eye, wherein the at least one suitable component is selected from the group of: (dex)pantenol, pantothenic acid, hyaluron acid and its salts and derivatives, thiamines (Vitamin B1), riboflavin (Vitamin B2), pyridoxine (Vitamin B6), nicotinic acid, nicotinic acidamide, biotin (Vitamin B7), niacinamide and niacin (Vitamin B3), honey, bee products, red beetroot syrup, collagen, gelatine, taurine, serine protease, propamidines, Vitamin D, Vitamin D derivatives, calciferol, Vitamin K, tannin, pyruvates, fibroblastine, fibronectin, fibronectinhydrolysate, heparin, alfa-ketoglutaric acid, carnisine, laminisine, mucin, tenascin, EGF, PDGF, FGF, sugaresters, and all pharmaceutically acceptable salts and derivatives of the compounds mentioned above, and selenium, calcium, and zinc.

19. (Canceled)

20. The kit of claim 18, wherein the composition further comprises compounds to disinfect, clean, insert and/or store contact lenses.

21. The kit of claim 18, wherein the composition comprises one or more peptides as a component to disinfect, protect, clean and/or store the contact lens.

22. The kit of claim 18, wherein the suitable component for eye-treatment is a medicine.

23. The kit of claim 22, wherein the medicine is chosen from the group of cromoglycin acid, Edamastine, azelastine and nedrocromil and their ophthalmologically ophthalmologically acceptable salts and derivatives.

24. The kit of claim 18, wherein the composition takes the form of a spray, solution, gel, coating and/or tablet.

25. (Currently Amended) A method for the treatment and/or care and/or protection of the eye comprising:

providing a contact lens for treatment and/or care and/or protection of the eye impregnated with a composition comprising at least one suitable component for the treatment and/or care and/or protection of the eye, and

wearing of the contact lenses for a set period of time; wherein the at least one suitable component is for the treatment or prevention of allergic symptoms, or for the treatment of eye-diseases.

26.-29. (Canceled)

30. (New) A composition for contact lens care, comprising at least one component selected from the group consisting of: (dex)pantenol, pantothenic acid, hyaluron acid and its salts and derivatives, thiamines (Vitamin B1), riboflavin (Vitamin B2), pyridoxine (Vitamin B6), nicotinic acid, nicotinic acidamide, biotin (Vitamin B7), niacinamide and niacin (Vitamin B3), honey, bee products, red beetroot syrup, collagen, gelatine, taurine, serine protease, propamidines, Vitamin D, Vitamin D derivatives, calciferol, Vitamin K, tannin, pyruvates, fibroplastine, fibronectin, fibronectinhydrolysate, heparin, alfa-ketoglutaric acid, carnisine, laminisine, mucin, tenascin, EGF, PDGF, FGF, sugaresters, and all pharmaceutically acceptable salts and derivatives of the compounds mentioned above, and selenium, calcium, and zinc.

31. (New) The composition of claim 30, wherein said contact lens is a day-lens.

32. (New) The composition of claim 30, wherein said at least one component is (dex)pantenol.

33. (New) The composition of claim 30, wherein said contact lens care composition is a contact lens storage composition.

34. (New) The composition of claim 32, wherein said contact lens is a day-lens.
